

GROUNDBREAKING

Sprint-Thru Best & Fast Cafe and Best & Fast Mini-Mart Groundbreaking

Temple entrepreneur and innovator Gopal Nandakumar is bringing a new vision for convenience retail to life with Best & Fast Café and Best & Fast Mini-Mart, the inaugural concept powered by My SingleLink and its patented Sprint-Thru™ technology. Combining a café, convenience store, and automated order pickup system, the concept allows customers to order, pay, and retrieve purchases quickly and securely through smart locker technology. As the first location to showcase this innovation, Best & Fast demonstrates how technology can enhance the customer experience while improving speed, efficiency, and convenience.
